

Protocol number: ADP101-MA-01

Does food allergy follow you wherever you go?

You may qualify for a clinical study.

Now enrolling: the Harmony food allergy study

A clinical study is enrolling participants 4 to 55 years of age with food allergy to at least one of the following: peanut, tree nuts (almond, cashew, hazelnut, pecan, pistachio, walnut), wheat, cow's milk, chicken's egg, codfish, salmon, shrimp, sesame seed, and soy.

Ask your doctor about eligibility for the Harmony food allergy study.

Please visit FoodAllergyStudy.com for more information.
